EDUCATION

Sahyadri College of Engineering and Management:

Bachelors of Engineering - Computer Science Engineering (CSE) (Currently in 3rd Year)
GPA: 8.8

Shree Swaminarayan Gurukul Chala

Class XII: 82%
Class X: 9.6/10

SKILLS

- **Tools:** Git, Figma
- **Languages :** Python, Java, C, Javascript ,HTML/CSS
- **Frameworks:** NodeJS
- **Soft Skill:** Leadership, Teamwork

PROJECTS

- **Noob Game (Game Development):** It's a multiplayer game, where the player has to escape from the ghost. A team of 2 worked on the backend flow of the game and one member worked on the frontend operation of the game. The purpose of this project was like it was a community challenge within SOSC and we included this game in our hackathon. About 200 people played this game during the hackathon.
[Tech used : Phaser.js , NodeJs , MongoDB]
Link : <https://github.com/alpha-oss/noob-game>
- **WeCare (App Development, Database):** Built an application for providing online service of pest control services. Users can place orders for required pest service which is redirected to the pest-control company.
Tech: Java, SQL

EXPERIENCE

- **Technical Lead at SOSC**
SOSC is an open-source community of 200 – 300 student developers on our campus. As a lead, it's my responsibility to see after the technical events or workshops being conducted, resolve any technical issue faced by the participants.
- **Community member at Mozilla Club Sahyadri.**
Mozilla Club is one of a chapter under SOSC, where members of the club work collaboratively on open source projects, and various workshops are also being conducted.
- I was part of organizing flagship tech-event like devhost where 200–400 people attended to catch up with interesting tech talks given by speakers from various domains and also some hands-on workshops.

CERTIFICATIONS

- **Coursera**
Python for Everybody Specialization (July 2020)
SQL for Data Science (August 2020)
- **Qwiklabs**
Skill Badge
Create and Manage Cloud Resources
